

WESTMINSTER CENTRAL HALL

Westminster Central Hall, a thriving Methodist Church and major London conference centre, occupies an impressive site facing Westminster Abbey. The organ, with its imposing 32ft façade, was built by Hill & Son in 1912. It was rebuilt and enlarged by Rushworth & Dreaper in 1970.

The major re-ordering by Harrison & Harrison in 2010-11 was based on the Hill scheme and musical style; it included a revised layout, provision of new slider soundboards and actions, and painting the front pipes.
